Estelita Pineiro

Date

Dear Sir:

In the Restriction Requirement mailed March 23, 2004, the Examiner identified two patentably distinct inventions: I. Claims 1-4, drawn to a method performed by an implantable cardiac stimulation device for analyzing a cardiac signal to generate information representative of the characteristics of R-waves and T-waves; and II. Claims 5-7, drawn to a system for locating T-waves using an implantable cardiac stimulation device.

The Examiner has required Applicants to elect one of the inventions for prosecution. Applicants elect invention I, directed to Claims 1-4. This election is made without traverse.

Respectfully submitted,

4/1/04
